

# Dear delegates and KTU SA community,

I am Augustinas Laimonas Bytautas, a third-year student of New Media Language. My pursuit at students' union began in the Public Relations committee while I was still a freshman. Back then, I became the coordinator of the international student film festival "Stop". This position helped me unravel my actual calling – the Human Resources committee, and before long I grew into the role of an HR coordinator at my faculty's student union. Less than six months later, I received an invitation from the current president Lukas Kijauskas to coordinate this field on a larger scale – across the whole of KTU SA. The year spent working in the Central Bureau of KTU SA provided me with priceless experience (more on that in my resume), thus I would like to introduce you to three main aspects on why I am running for the president of KTU SA:

## I desire

- ▶ Because I am still devoted to the student's movement
- ▶ Because the experience I want to earn is directly related to my future
- ▶ Because this organisation has developed, evolved, and reshaped me as an individual

## I can

- ▶ Because I have been a part of the Central Bureau and I know how it works
- ▶ Because I can comprehend when, how, why, and what is a team and how to manage it
- ▶ Because the president was my tutor for the whole term of office

## It is necessary

- ▶ Because continuity and persistence are more than significant
- ▶ Because values are the drive of an HR manager
- ▶ Because my organisation and its natural development is what is crucial to me

Yours faithfully,

Augustinas Laimonas Bytautas

Candidate for KTU Students' association presidential post
